PROFESSIONAL SUMMARY

B.Tech graduate in Electronics and Telecommunication Engineering with strong knowledge of Core Java, Spring Boot, Spring MVC, REST APIs, JPA/Hibernate, MySQL, and React.js. Skilled in developing CRUD applications, RESTful APIs, database integration, authentication, and frontend-backend integration. Seeking a Java Developer role to apply my programming and application development skills.

TECHNICAL SKILLS

- **Programming Languages:** Java (Core Java), JavaScript (ES6+), SQL
- **Frameworks & Libraries:** Spring, Spring MVC, Spring Boot, Spring Security, JPA, Hibernate, React.js
- **Backend & APIs:** REST APIs, JDBC, Servlets, JSP, MVC, JSON, AJAX
- **Database:** MySQL, SQL, PL/SQL, Database Queries
- **Security:** JWT Authentication, Spring Security
- **Architecture:** Microservices, API Integration
- **Web Technologies:** HTML5, CSS3, Bootstrap
- **Core Concepts:** OOP, Collections Framework, Exception Handling, Multithreading, CRUD Operations
- **Tools / Platforms:** Git, GitHub, Postman, Swagger, VS Code

EXPERIENCE

Java Full Stack Developer Intern Sep 2025 – Aug 2026
Creazione Softwares, Pune, India *Internship*

- Built and enhanced web applications using Core Java, Spring Boot, Spring MVC, JSP, and MySQL.
- Implemented CRUD operations, business logic, validations, and exception handling, with database integration through JDBC and JPA/Hibernate.
- Developed and tested RESTful APIs, using Postman for API testing and debugging, and exchanged JSON data with frontend applications.
- Secured API access by implementing authentication and authorization with Spring Security and JWT.
- Integrated React.js frontend components with backend services by consuming REST APIs for dynamic application functionality.
- Used Git and GitHub for version control and collaborative development.
- Gained foundational exposure to microservices concepts, including service-to-service communication, API Gateway, service discovery, and centralized configuration.

PROJECTS

Employee Attendance and Payroll Management System
Tech Stack: Spring Boot, Spring Security, JWT, React.js, JPA/Hibernate, MySQL, Google Gemini AI

- Developed a full-stack HRMS with employee, attendance, leave, payroll, and admin modules, secured with JWT authentication, BCrypt password hashing, and role-based access control.
- Built REST APIs and business logic using Spring Boot, JPA/Hibernate, and MySQL for attendance tracking, leave/LOP calculation, payroll processing, holidays, salary components, overtime, search, and pagination.
- Integrated Google Gemini AI to create an HR and manager assistant chatbot (React frontend, Spring Boot REST API) that answers natural-language queries on attendance, leave, payroll, holidays, and HR processes.

Property Rent Estimation Model Live Demo: rentpropertyestimation.co.in
Tech Stack: Java, AJAX, Google Gemini AI

- Developed a full-stack web application that predicts fair rental prices across Indian cities using a custom machine learning engine written in pure Java.
- Implemented BCrypt password hashing, role-based access control, session management, and OTP-based password reset.
- Integrated a Google Gemini AI chatbot and AJAX-based dynamic location selection; built an admin dashboard for user management, training-data CRUD, model retraining, and prediction history tracking.

EDUCATION

B.Tech, Electronics and Telecommunication Engineering 2025
Yeshwantrao Chavan College of Engineering, Nagpur CGPA: 7.8/10
