Pune, India | +91 9579312469 | rambhadake67@gmail.com | linkedin.com/in/ram-bhadake-b0a1972ab

OBJECTIVE

Seeking an opportunity to apply my skills in Java, Spring Boot, React, MySQL, and Generative AI to contribute to real-world projects, solve technical challenges, and continuously enhance my knowledge through practical experience.

Education

B.Tech in Electronics and Telecommunication Engineering Yeshwantrao Chavan College of Engineering, Nagpur (2025)	CGPA: 7.8
Diploma in Mechanical Engineering Government Polytechnic, Solapur (2020)	78.10%
SSC Maharashtra State Board (2017)	87.20%

Skills Summary

- **Programming Languages:** Core Java, JavaScript (ES6+)
- **Frameworks:** Spring, Spring MVC, Spring Boot, JPA/Hibernate, React
- **AI / Generative AI:** Google Gemini API, AI Chatbot Integration
- **Web Technologies:** Servlet, JSP, HTML5, CSS3, Bootstrap, REST APIs, AJAX
- **Databases:** MySQL
- **Tools / Platforms:** Git, GitHub, VS Code, Postman
- **Core Concepts:** OOP, Collections Framework, Exception Handling, Multithreading, JDBC

Internship Experience

Java Full Stack Developer Intern Creazione Softwares, pune	Jan 2025 – May 2025
• Developed web applications using Java, Spring Boot, JSP, and MySQL. • Implemented CRUD operations and database integration using JDBC/JPA. • Worked with REST APIs and participated in debugging and testing. • Collaborated with team members using Git and GitHub.	

Projects

- 1) Employee Attendance And Payroll Management System**
 - Developed a full-stack HRMS and Payroll Management System using Spring Boot, Spring Security, JWT, React.js, and MySQL, implementing employee, attendance, leave, payroll, and admin modules with role-based access control and BCrypt authentication.
 - Built REST APIs and backend business logic using Spring Boot, JPA/Hibernate, and MySQL for attendance tracking, leave/LOP calculation, payroll processing, holidays, salary components, overtime, search, and pagination.
 - Integrated Google Gemini AI to develop an AI-powered HR & Manager Assistant that handles natural-language queries related to attendance, leave, payroll, holidays, and HR processes through a React chatbot and Spring Boot REST API.
- 2) Property Rent Estimation Model** (Live Demo)
 - Developed a full-stack web application to predict fair rental prices across Indian cities using a custom ML engine built in Pure Java. Implemented authentication with BCrypt password hashing, role-based access control, session management, and OTP-based password reset.
 - Integrated Google Gemini AI chatbot and AJAX-based dynamic location selection, with an Admin Dashboard for user management, training-data CRUD, model retraining, and prediction history tracking.
